(End of list)

LABELING RULES AND GUIDELINES

LEVELS OF CERTIFICATION

There are three levels of certification. Each of the three levels of certification has its own label. There are few options for label use and some basic rules for labeling (next chapters). Labels are in primary-basic and secondary-transparent/negative options. The ECOGEA certification logos can be used in various forms with extremely few restrictions. All restrictions are indicated in next chapters. All ECOGEA logos colors can be adjusted to match your label design. For example primary-basic green logo can be additionally darkened if needed. Please note if you are not using standard ECOGEA green or black Ecogea Institute must approve your color variation and put into database.

NATURAL PRODUCTS

Composition rule summary:

- ☒ Minimum 75 % of natural ingredients required.
- ☒ No minimum organic % of processed natural ingredients from agricultural source (physically and/or chemically) is required, but is highly recommended.
- ☒ Strict limitation regarding synthetic additives with no natural alternatives.

NATURAL – ORGANIC PRODUCTS

Composition rule summary:

- ☒ Minimum 85 % of natural ingredients required.
- ☒ Minimum 2,5 % – 25 % of processed natural ingredients from organic agricultural source (physically and/or chemically), depending on a product category is required.
- ☒ Very strict limitation regarding synthetic additives with no natural alternatives.

ORGANIC PRODUCTS

Composition rule summary:

- ☑ Minimum 95 % of natural ingredients required.
- ☑ Minimum 10 % – 100 % of processed natural ingredients from organic agricultural source (physically and/or chemically), depending on a product category is required.
- ☑ Very strict limitation regarding synthetic additives with no natural alternatives.

LABELING RULES

Follow these basic guidelines:

- Regardless of the shape of the logo on the packaging, the basic requirement is that the logo is readable and well visible.
- Decide which logo best suits you.
- In accordance with the size of the packaging, its color and the quality of the print, use the optimal logo, taking into account the basic rules of graphic design, aesthetics, and color compliance rules.
- Do not scale logos below the minimum size. In the case of extremely small packaging, please ECOGEA Institute and you will be provided with logo suitable for your packaging.
- If there are several quality logos on the packaging, the Ecogea standard logo must be at least equivalent in size.
- If possible, use the primary logo in green.
- Do not modify the logos formally, do not pamper them, and do not interfere with their field of inviolability.

Quick view of logo and sizes (see next chapters for details):

Preferred sizes		Smaller sizes – not recommended	
 15 mm Width 15 mm and more (Normal size)	 10 Width 10 - 14 mm (Small size)	 7,5 Width 7,5 - 9 mm (Extra small size)	 Width 5 - 7 mm (Extra extra small size)

LOGO TYPES – PRIMARY BASIC

CMYK	Black	CMYK	Black	CMYK	Black	Size
						10 < 15 mm
						15 mm ≤
Certified as NATURAL		Certified as NATURAL-ORGANIC		Certified as ORGANIC		

File names (available for certified customers under download):

ecogea_**_10mm_P-[****].*

ecogea_**_15mm_P-[****].*

All logos are available in graphic formats: AI, EPS, PDF and PNG

LOGO TYPES – SECONDARY TRANSPARENT AND NEGATIVE

CMYK	Black	CMYK	Black	CMYK	Black	Size
						10 < 15 mm
						15 mm ≤
White (neg.)		White (neg.)		White (neg.)		Size
						10 < 15 mm
Certified as NATURAL		Certified as NATURAL-ORGANIC		Certified as ORGANIC		15 mm ≤

File names (available for certified customers under download):

ecogea_**_10mm_S-****.*

ecogea_**_15mm_S-****.*

All logos are available in graphic formats: AI, EPS, PDF and PNG

Primary basic logo cannot be used in white color (negative) same as secondary transparent logo.

LABEL SIZE, POSITION AND SPACE OF INVIOABILITY

Ecogea logo can be used in various sizes. Normal size with width of 15 mm and more is preferred, but there are also smaller sizes. Ecogea label must be used on primary and secondary packing. All detailed guides and help about labeling is provided once again during certification with all logos in different graphic formats.

Space of inviolability is safe area where other graphic elements from the packing are not allowed to interfere. Background color is exception in this case.

Example of graphic file (available for certified customers under download):

ecogea_NO_10mm_P-CMYK.ai or ecogea_NO_15mm_P-CMYK.ai

NO = Natural organic

P = primary

10mm = size

CMYK = color space

All logos are available in graphic formats: AI, EPS, PDF and PNG

Smallest recommended size is 10 mm. There are also options for smaller logos on extra small packages. Please contact Ecogea Institute for different solutions.

APPEARANCE ON COLOR BACKGROUNDS AND IN POSITIVE OR NEGATIVE

If basic green color is not suitable/compatible with your graphic it is possible to change it into any other color with color saturation more than 50 %. White logo (negative) is recommended for all backgrounds with color saturation more than 50%.

Background color saturation benchmark: White logo in negative is recommended for all labels/packings with background color saturation more than 50 %.

EXAMPLES OF PROHIBITED USE

Distortion

transformation

Multicoloring*

*Certified by ECOGEA.ORG text can be only changed in black (K=100) color in case of colored logo, (e.g. primary-basic green).

REQUIRED INGREDIENTS INFORMATION

The label must include information about the percentage of ingredients from natural origin (*) and the percentage of ingredients from organic agricultural source (**), as stated below:

* Ingredients from natural origin (*e.g. 98%*)

** Ingredients from organic agricultural source (*e.g. 20%*)

The allergens have to be marked (***) with one of three statements below:

*** Components from natural essential oils (*if only natural essential oils are added*)

*** Components from fragrance (*if only fragrance(s) are added*)

*** Components from natural essential oils and fragrance (*if natural essential oils and fragrance(s) are added together*)

As required by EU Cosmetics Directive and the EU Detergents Directive.

If there is no organic ingredients in the product (only in case of “Natural” certification) claim “ ** Ingredients from organic agricultural source ” may be excluded.

The mandatory statements about composition can be used in English or it can be translated into any language by choice of manufacturer. The same applies to other optional statements. The meaning of the statements must stay the same.

ADDITIONAL OPTIONAL STATEMENTS

Your label can have additional statements regarding ingredients. These are all optional. Few examples are stated here:

Conventional agricultural source statement

Manufacturer can update their “*Ingredients from natural origin” statement with addition of conventional agricultural source statement. It means that total product percentage of it is added to the statement.

Example:

* *Ingredients from natural origin (98%), with part from conventional agricultural source (25%)*

Without statements:

- Without parabens, phenoxyethanol and sources of formaldehyde
- Without mineral oil and silicones
- Without sulfates (SLS / SLES)
- Without artificial aromas and colors
- Without PEG

Alcohol statements:

- Alcohol from natural extracts does not exceed x,x %
- Alcohol concentration is x,x %
- Alcohol free

All these statements can be modified and arranged according to the needs of manufacturer. Instead of without statement, "free" statement can be used (e.g. sulfate free).

EXAMPLE OF A LABEL

Body lotion with jojoba and lavender

INGREDIENTS: AQUA*, ALOE BARBADENSIS LEAF JUICE*/**, MACADAMIA INTEGRIFOLIA SEED OIL*, GLYCERYL STEARATE CITRATE*, CETEARYL ALCOHOL*, SIMMONDSIA CHINENSIS (JOJOBA) SEED OIL*/**, BUTYROSPERMUM PARKII (SHEA) BUTTER*/**, XANTHAN GUM*, DEHYDROACETIC ACID, BENZYL ALCOHOL, LAVANDULA ANGUSTIFOLIA FLOWER OIL*, LINALOOL***, LIMONENE***, GERANIOL***, COUMARIN***

Natural-Organic

SI Naravno ekološki losjon za telo
Neguje, vlaži in hrani vašo kožo, a je obenem ne masti. Je nežen in prijazen do občutljive kože. Se izredno dobro vpija in je primeren za uporabo po kopanju ali sončenju. Vsebuje izvleček manga, gel aloe vere in rožno vodo rimske kamilice. Losjon je obogaten z olji makadamije, mandija, sončnice, masla karite, vitaminom E, allantoinom in pantenolom. Navodilo za uporabo: nanesite po celem telesu na predhodno očiščeno in suho kožo ter nežno vtrite. Hranite zaprto pri sobni temperaturi. Št. serije je odtisnjena na embalaži.

ENG Natural and organic body lotion
It nourishes and moisturises your skin, but it does not make it greasy. It is gentle to sensitive skin. It is highly absorbent and it is suitable for use after swimming or sunbathing. It contains mango extract, aloe vera gel and rose water of Roman chamomile. The lotion is enriched with oils of macadamia, almond, sunflower, shea butter, vitamin E, allantoin and panthenol. Instructions for use: Apply on clean skin all over your body and massage gently. Keep well closed at room temperature. Lot number is printed on the packaging.
